

Mr. Prehn has been working in the field of drinking water since 2000. After a classical apprenticeship in the trade, he expanded his knowledge with technical and economic studies. After his studies, Mr Prehn worked for a long time in the food industry, where he was constantly involved in water hygiene. At AQUA *free*, Mr. Prehn is responsible for the non-medical area, with products that are primarily designed for the housing industry as well as public buildings among others.
